LOCATION

Spectrum Health Special Care Hospital is centrally located in a quiet neighborhood setting in Grand Rapids, only five minutes from Spectrum Health's Butterworth and Blodgett hospitals. The Fuller Avenue location is home to both the Special Care Hospital, a 76-bed long term acute care hospital (LTACH), and Spectrum Health Rehab and Nursing Center, a 278-bed skilled nursing and rehabilitation facility.

LIFESTYLE

The greater Grand Rapids area has a population of more than 1.3 million. Spectrum Health is the area's largest employer. In addition, several Fortune 1000 companies have headquarters in metro Grand Rapids. With average temperatures of 72 degrees in July and 22 degrees in January, Grand Rapids offers full four-season recreational opportunities. The arts and cultural community thrives in Grand Rapids with professional symphony, opera and ballet companies, as well as a 125-acre botanical garden and sculpture park.

HOSPITAL

As the only long term acute care hospital (LTACH) in the greater Grand Rapids area, and the second largest in the state, Spectrum Health Special Care Hospital provides the expertise of a large hospital with the personalized attention of a small one. Often LTACH patients come directly from an intensive care unit or they have multiple injuries, trauma or other medical complications that need a longer acute care stay. A multidisciplinary team of expert health care professionals, directed by a physician or team of physicians, treats the whole patient, physically, emotionally

and socially. Treatment is individualized to patients to support their return home or move to the next level of care as necessary. Referrals are received from all over Michigan and outside the state. Spectrum Health Special Care Hospital provides the time, attention and care its patients deserve.

LONG TERM CARE

As the fourth-largest skilled nursing facility in Michigan and a leading West Michigan provider, Spectrum Health Rehab and Nursing Centers provides a wide range of services from short term subacute nursing and rehabilitation to long term basic care. Medicare, Medicaid, private pay, and most private insurances are accepted.
