

Great Lakes Healthcare Purchasing Network

Quick Reference Guide

The Great Lakes Healthcare Purchasing Network (GLHPN) represents the commitment of its founding hospitals and health care systems to collaborate to reduce costs through group purchasing contracts.

A cornerstone of GLHPN as a Supply Network is the preservation of organizational independence and economic strength. As a Member of the GLHPN, each health care organization will maintain its organizational structure with the identity and image that has made it visible in the local community. GLHPN's role is to facilitate, identify and implement opportunities for contract aggregation, price parity and contract growth.

Mission

The mission of the Supply Network is to reduce the cost of health care by impacting the cost of supplies and other purchased services.

Vision

The vision of the Supply Network is to be the regional purchasing network of choice providing value and transparency through the identification and implementation of group purchasing opportunities.

Members

Great Lakes Healthcare Purchasing Network consists of 20 member hospitals throughout West Michigan.

Focus

The focus of the Supply Network is to support and strengthen Member health care organizations by seeking opportunities to reduce costs, improve efficiencies and increase hospital resources. Standardization of supplies and equipment is sought to increase patient safety and decrease risk.

How we get it done

GLHPN is led by a Purchasing Team, consisting of Supply Chain leadership from each member organization. The team meets monthly to identify priorities and achieve goals.

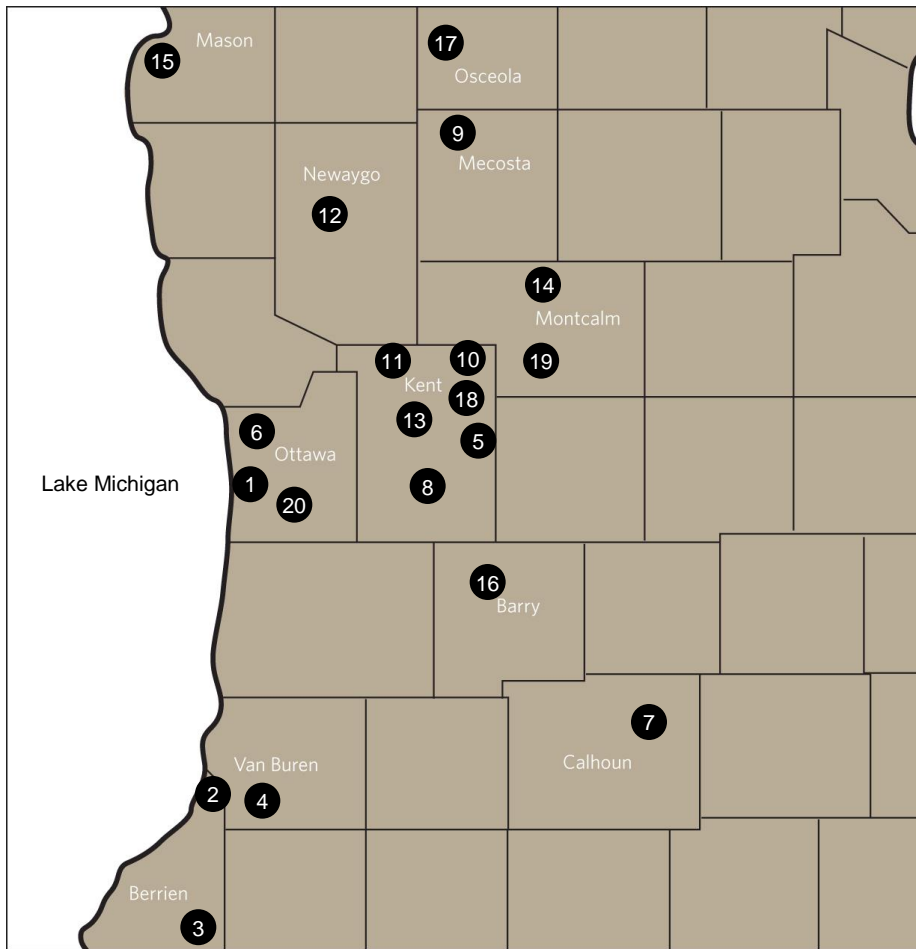

We work closely with Vizient, our network's primary Group Purchasing Organization, to achieve our savings goals. Vizient recognizes us as a Supply Network.

Since our first efforts in group purchasing in 2003, we have been able to save more than \$32 million for our members.
